MORE STUDENTS TO GET VOCATIONAL TRAINING;  
MINERS GET NEW HOUSING

GOVERNMENT SUBSIDIZES STUDENT TRAINING -- Budapest, Kis Ujsag, 3 May 51

The quota of students to receive vocational high school diplomas in Hungary during the school year 1951 - 1952 has been raised to 5,500. The course lasts 11 months and is given in the large towns and cities of the country.

While attending the course, students receive food, lodging, and school supplies. In addition, they receive a subsistence allowance of 100 forints a month. Heads of families receive 100 forints and an additional 50 forints for each dependent.

The course qualifies students to attend the technical university on scholarships.

According to the newly raised requirements of the Five-Year Plan, 11,000 engineers must be trained by the end of 1954. This means that more engineers will have been trained during this period than the total number of Hungarian engineers prior to the Five-Year Plan.

Every student costs the government 6,000 forints a year, or 30,000 forints if he goes on to the university.

3,200 MINERS TO GET APARTMENTS -- Budapest, Szabad Nep, 26 Apr 51

The Hungarian Five-Year Plan calls for the erection of 220,000 apartments of which several thousand are being built for miners families. By the end of 1951, 3,200 miners' apartments and lodgings for 3,000 bachelor workers are to be completed.

The new apartments consist of two rooms, kitchen, bathroom, and pantry. The bachelors' quarters are in single-story buildings which have a kitchen, dining room, and living room.
